JEFFREY HAMLIN VINOD AUXALIA RAJA

Dublin, Ireland| (+353) 0894409273 | jeffreyvhamlin@gmail.com
LinkedIn | Portfolio | Github

I'm a results-driven computer science student with a strong proficiency in Python, Java and SQL & hands on experience in Machine Learning, Software Development and Automation. I bring a practical and analytical thinking approach with a backing of rapid learning and structured problem solving. Seeking graduate roles in the field of computer science, working on real time software and data-driven solutions.

EDUCATION

Trinity College Dublin, Ireland **Sep 2025 -Present**
MSc Computer Science - Data Science 2:1 (Expected)
Rajalakshmi Engineering College, India **2021 - 2025**
B.E. Computer Science and Engineering CGPA 8.01/10

SKILLS

- **Programming & Software Development**: Python, Java, C, HTML, CSS, Bootstrap, JavaScript, REST APIs, Git
- **Data Analytics Tools:** Python, R, SQL, Power BI, D3.js
- **Data Base Management**: MySQL, SQL Server, PostgreSQL
- **Automation & Workflow Tools**: UiPath Studio, Power Automate(basic), UiPath Cloud
- **Collaboration Tools**: GitHub, G-Suite, Microsoft Excel
- **Key Modules**: Data Structures and Algorithms, Object-Oriented Design, Artificial Intelligence, Computer Networks, Cloud Computing, Operating Systems

PROJECTS

Personal Finance Tracker

- Designed and developed an end-to-end personal finance platform with frontend, backend services, and PostgreSQL-based persistence for transaction management.
- Built a data ingestion and processing pipeline to clean, validate, and transform raw CSV bank statements into analysis-ready datasets.
- Implemented an ML-based transaction categorization system and developed dashboards to visualize spending patterns, trends, and insights.

AI Resistant Scalable Captcha Systems

- Built a scalable CRNN-based CAPTCHA recognizer on a 4,000+ image noisy synthetic dataset to understand CAPTCHA breaking with ML/DL, then optimized and converted it to TensorFlow Lite for deployment on a constrained Raspberry Pi.
- Designed an AI-resistant CAPTCHA system that distinguishes humans from bots using behavioral telemetry (keystrokes, pauses, mouse movements, paste events, tab visibility) and lightweight semantic checks along with sycophancy.
- Evaluated robustness using automated attacker scripts and implemented interpretable rule-based scoring for pass / fail / retry decisions.

EAFC 26 Footballers Rating Dashboard - 🔗

- Developed an interactive dashboard using D3 to analyze metric of 17,000+ football players, including ratings, potential and market value.
- Executed data cleaning, transformation and interactive visualization design, applying strong quantitative skills for exploratory analytics.
- Completed the project out of curiosity, to learn and strengthen data visualization skills while gaining hands-on experience in dashboard design and exploratory analytics

INTERNSHIP

Frontend Developer Intern - Yi Chennai **August 2023 - October 2023**

Architected and delivered a responsive, multi-section website using HTML, CSS, and Bootstrap, coordinating a 3-member team and implementing modular layouts for events, registration, galleries and contact workflows, supporting 500+ active users.

Certifications:

- **Deep Learning Concepts Workshop** - University of Texas, Dallas
- **Entrepreneurship -** NPTEL
- **Automation Explorer Training -** UiPath Academy
- **Control Flow in Studio -** UiPath Academy

LEADERSHIP/VOLUNTEERING

- **Chair - Sports Vertical, Yi Yuva REC:** Promoted from HR to Chair, managing multi-team volunteers and successfully delivering 50+ community-focused and inclusion-driven programs over a span of 3 years.
- **Communication & Sponsorship Lead, Recharge (National Cultural Fest):** Managed communications and sponsorship operations for a 150+ member team, strengthening cross-college engagement and event reach.
- Contributed to community impact and team sports through Trinity Vincent de Paul and Galloping Stallions football club.
- Mentored and trained college juniors in competitive programming and problem-solving as part of the college placement team.
- Provided academic tutoring to school students in mathematics and computer science, improving effective explanation and presentations.
